INTRODUCTION

I regret the delay in publishing the Census Statistics of 1941. It was unavoidable. After the statements had been set in type to a size approved by Government it was discovered that due to war, paper of the special dimension was not available in the market and so the printing was withheld. When paper of the required size came to market the work was done *de novo* and printed.

The Statistics have been tabulated in sixteen forms as desired by the Census Commissioner, Government of India. It is customary for all provinces and states to conform to the all-India pattern and so the tables are called 'Imperial' tables in contrast to 'State' tables, which are seven in number. The former afford easy comparison with relative statistics of other Provinces and States. The State Tables are more detailed and informative. To each of the Imperial tables are added several subsidiary statements so that consultants may have little difficulty in studying such data as they may be in need of.

While referring to the statistics, the notes appended to each Imperial Table may be consulted. They give useful information such as cannot be had elsewhere in the volume. Formation of new taluqs and a new District changes in administrative jurisdiction of some taluqs or parts thereof, expansion of city and town boundaries by the inclusion of villages in close proximity, changes in the classification of occupation, constitution of communities, etc., are all succinctly explained in the notes. Several improvements have also been made in the presentation of subsidiary statistics.

I have also compiled in a more comprehensive style the districtwise village lists. The villages in a district are arranged alphabetically, and in addition to useful statistics against each unit, a taluqa map for reference is attached. Copies of these can be had from my office.

I record my appreciation of hard work done by my assistant Mr. Mohammad Ali, B.A., Mr. Fida Husain, B.A., Branch Superintendent and Mr. T. Brahmiah of my office in compilation of this volume and in correcting the proofs.

IMPERIAL TABLES.

I.—Area, Houses and Population.

1. During the decade 1931-41, the following territorial changes took place:—

(i) District Baghat, a Taluq in Medak District in 1931, was constituted as a separate district.

(ii) The new Taluq of Banswada in Nizamabad District, with an area of 248 sq. miles and a population of 77,276 persons has been formed out of the Taluqs of Yellareddi and Bodhan.

(iii) The Taluq Yellareddi was transferred from Nizamabad District to Medak District.

2. The areas shown for the Dominions and districts are the same as those of 1931 except in the above cases (1) where figures are adjusted according to the alterations and changes.

Density.—The number of persons per sq. mile has risen from 175 in 1931 to 198 in 1941.

3. The order of the District has also been re-arranged keeping in view the geographical and Revenue Subas intact. Thus, beginning with the city of Hyderabad, the capital, follows the contiguous district of Atrai-i-Balda, Medak-Gulshanabad Subah with its Districts of Nizamabad, Medak, Baghat, Mahbubnagar and Nalgonda; the Warangal Subah with its Districts of Warangal, Karimnagar and Adilabad, the Aurangabad Subah with its Districts of Aurangabad, Parbhani, Nander and Bir and lastly the Gulbarga Subah with its Districts of Gulbarga, Raichur, Osmanabad and Bidar.

4. As before, the British Administered Areas of Secunderabad, Trimulgherry and Bolaram are treated as part of the City of Hyderabad; and the Cantonment of Aurangabad as part of the Aurangabad city. The former British Administered Area Residency Bazaar (re-named as Sultan Bazaar) came under the Hyderabad City Corporation after its rendition in 1934.

5. The details of area and population of the British Administered Areas are shown in State Table I.

6. The City of Hyderabad includes 75 suburban villages as against 46 villages in 1931 whose area and population are excluded from the Districts concerned but included in the City. The tracts so included together with details of area and population will be found in State Table IV.

7. Statistics of population by Taluqs are given in State Tables 1 & 2 and for villages, separate " Village Lists " are published.

8. There has been an increase of 17.0% in the number of occupied houses over 1931; whereas the percentage increase of population is 13.2.

Family Unit.—The average number of persons per house thus fell at 4.2 in 1941 from 4.3 in 1931.

9. Places with population of 5,000 and over have been taken this time as towns and not otherwise the total urban population of all towns & cities having a population over 5,000 and above, is 2,194,294.

Urban and rural ratio.—On the above basis the urban and rural ratio per thousand population is 184 urban and 866 rural or 1; 6.

II.—Variation in Population During Fifty Years.

1. The figures in this table compare the population males and females, with those of the last five decades.

2. The figures given for the previous censuses have been adjusted in this table in cases where there have been transfer of Taluqs or newly created units (vide Note No. 1 Imperial Table I).

3. During fifty years the total population of the State has increased by 41.6 per cent. India as a whole for the same period put up 38.0 per cent. in which 38.8% and 39.7% were the share of British Indian Provinces and Indian States respectively.

4. The Census figures up to 1931 represent a *de facto* population. In 1941 enumeration was made on the principle of the house-dwelling population being recorded at its usual place of residence.

III.—Towns and Villages Classified by Population.

1. There has been no increase in the number of cities (Balda) which is four, Hyderabad City, Warangal, Aurangabad and Gulbarga the same as in 1931. As the population of Aurangabad and Gulbarga towns exceed 50,000 these are now raised to class II from class III.

2. There are now 4 cities and 134 towns, total number is 138 as against the total number of 133 in 1931. Among the 133 cities and towns of 1931, there were 35 places that had a population below 5,000 but owing to their being Taluqa headquarters, they were classed as towns. There is a change this time. Places having a population of above 5,000 are treated as towns. Thus 25 places of 1931 were deleted in 1941 from the list of towns as their population fell below 5,000 population limit; while 30 places that were formerly villages having reached the 5,000 population limit in addition to their urban characteristics were included in the list of towns.

Qadirabad which lay close by Jalna was merged into Jalna town and ceased to be a separate unit.

3. The total number of villages (Mauza) in 1941 is 22,435 as against 21,697 in 1931 or 738 villages more than 1931. These villages include the population of hamlets (Mazra) attached to them.

4. The population of Hyderabad City includes 75 suburban villages (56) of Atraf-i-Balda and (19) of Baghat Districts. In 1931 it included 46 suburban villages. The names and population of these villages will be found in State Table IV.

VI.—PART. I.—Birth Place.

1. Birth place statistics were collected on a limited scale in 1941 as was done in 1931 and these are classified in the following manner :—

A—Born in India with the following sub-heads :—

(a) born within the Dominions.

(b) born in provinces & states beyond the Dominions.

B—Born in countries of Asia beyond India.

C—Born in Europe.

D—Born in Africa.

E—Born in America.

F—Born in Australia.

G—Born at sea.

H—Birth place not returned or unspecified.

2. In the above head A (a) born within the Dominions, birth place of individual districts have not been collected on this occasion. The Census Question asked was “ Were you born in these Dominions ”— and not—“ were you born in this District.” Thus figures for internal migration are not available.

3. In the head A (b) born in Provinces & States beyond the Dominions, three sub-heads are given, viz.,

(i) Whose birth place is within the Provinces and States adjacent to the Dominions—since the immigrants into the Dominions are mostly from the adjoining places.

(ii) Whose birth place is in other British Indian Provinces.

(iii) Whose birth place is in Indian States.

4. Details for “ others ”.

B—(ii)—Born in other British Indian Provinces.

VI.—Part. II (a) and (b).

1. This table is newly added in 1941 with the following two parts :—

(a) Persons born elsewhere but residing in H.E.H. the Nizam's Dominions by districts & No. of years of residence.

(b) Persons born elsewhere but residing in H.E.H. the Nizam's Dominions by communities & No. of years of residence.

The statistics found in this table refer only to the "Immigrants" into the Dominions and to such extra information as to show number of years of residence and communities, which are not available in birthplace statistics, part I of Imperial Table VI.

2. The total number of immigrants into the Dominions is 305,894 of these, the most numerous are recorded in the city of Hyderabad (83,856), Adilabad (46,898), Warangal (37,660) & Aurangabad (26,996), the remaining districts having less than 20 thousands ranging from 13,634 in Raichur to 1,792 in Baghat.

3. Out of a total of 305,894 outside births 10.0 per cent. persons are staying for the last one year, 8.4 per cent. for 2 years, 15.2 per cent. for 3 to 12 years and 20.6 per cent. "over 12 years" and 45.8 per cent. for unspecified number of years.

4. All communities are represented in this Non-Hyderabad population. On 1,000 Br. Hindus in the Dominions, 152 males & 103 females are hailing from different parts of India and abroad, while on 1,000 Muslims, there are 40 males and 25 females, 1,000 Christians, 87 males & 68 females, 1,000 Jains 107 Males and 127 females; 1,000 sikhs, 341 males and 325 females and 1,000 Parsees 600 males and 530 females, the other communities give a small proportion of strength.

5. Distributed according to the Provinces and States on every thousand immigrants :—

391 persons from Bombay Presidency.

VI.—Part III (a) and (b).

1. This table is a new feature in the series. It has two parts :—

- (a) Members of families enumerated in Hyderabad temporarily residing elsewhere.
- (b) Members of families enumerated in Hyderabad temporarily residing elsewhere by communities.

The figures in this Table are the result of an additional query put to the enumerated “whether any member of the family was living elsewhere for any temporary reason and if so the locality and the number of such members.” This gives an idea about the “emigrants” to various places. The figures in this Table could not be correlated with the actual returns of birth place of persons born in Hyderabad but enumerated elsewhere as excepting a few Indian States, the data has not been tabulated in other places.

2. There are 14,812 persons (9,487 males & 5,325 females) whose birth place is Hyderabad but are residing in various parts of the country. Bombay Presidency attracted as many as 9,260 persons or 62.5 per cent., Madras Presidency 16.6 per cent., & C. P. & Berar 8.1 per cent.

3. The largest number of families living outside Hyderabad are among “Other Hindus” 7,010 persons followed by Muslims 2,835, Brahmanic Hindus 1,481, Harijans 1,442 & Christians 962 persons. Other communities excepting “Tribes” have also contributed their quota to the strength.

VIII.—Means of Livelihood

PART I.—State Summary.

1. In this table occupations or means of livelihood have been arranged into 4 classes, 12 sub-classes, 55 orders and 235 groups, the arrangement being same as adopted in 1931 except that the number of groups in 1941 have been increased from 195 in 1931 to 235 in 1941.

2. Groups newly added in 1941 are marked with asterisks while in certain groups of means of livelihood of 1931, they have been either split & shown as separate groups (shown by the mark †) or by amalgamating with some other group (shown by the mark ‡).

3. Group No. 64 "Boots, shoes, sandal and clog makers" was under order 12 in 1931, but in 1941 shifted to order 6. Similarly, G. 136 "Scavenging" under order 17 though retains its Group No. as 136 has been shown under order 51 in this table. In All-India Table, however, G. 136 is shown under order 17.

4. A new M/L Group No. 122 (a) "Fruit cannery, pickling, fruit-juice, vinegar" and the group No. 194 of 1931 "procurers & prostitutes" deleted by C.C.I. is shown as G. 234 (a) under the order 54.

5. Figures in this Table show that the number of persons

(a) Having this as principal m/l without any subsidiary m/l are 5,751,820 persons or 35.21 per cent.

(b) Having this as principal m/l with some subsidiary m/l are 1,257,619 persons or 7.69 per cent.

(c) Having this as subsidiary m/l are 1,257,619 persons or 7.69 per cent.

(d) Partly dependents on this m/l are 2,201,643 persons or 13.48 per cent.

(e) Totally dependent on persons having this m/l are 9,329,095 or 57.09 per cent.

In other words there are :—

(a+b) Principal earners .. 7,009,439 persons or 42.89 per cent.

(d) Partly dependents .. 2,201,643 persons or 13.48 per cent.

(e) Entirely dependents
(i.e. subtracting partly
dependents from total
dependents) .. 7,127,452 persons or 43.61 per cent.

Total population .. 16,338,534 persons or 100.00 per cent.

X.—PART I. UNEMPLOYMENT BY AGE AND LOCALITY (FOR LESS OR MORE THAN ONE YEAR)

1. For want of sufficient data this table was abandoned in 1931 Census ; hence no comparison can be given with 1941.

2. The total number of persons returned as unemployed is 47,621 and 25.3 per cent. of the unemployed is found in the City of Hyderabad.

3. The ratio of unemployed to the total working population (as per Imperial Table VIII.—P.I.) works out at 68 persons per every 10,000 workers while there are 73 persons unemployed on every 10,000 of persons whose ages are between 15 and 40 (Imperial Table VII.— P. I.).

X.—PART. II. EDUCATED UNEMPLOYMENT (FOR LESS OR MORE THAN ONE YEAR)

1. Unemployment among the educated is classified according to the standard of education and they number 18,146 in the Dominions. These represent only a fraction or 1.4 per cent. of the total literates enumerated in 1941 (Imperial Table XI—P.I.).

2. According to standard of Education the following is the percentage of Educated Unemployed.

Standard of education				P.C. to total educated unemployed	
College qualification	1.5
Undergraduates	1.4
Matriculation or H.S.L.C.	4.1
High School	5.2
Middle school	12.1
Primary school	20.8
Literates	54.8

3. On every 100 educated unemployed, 44 persons are unemployed for less than year and 56 persons for more than a year.

XI.—LITERACY BY COMMUNITY AND AGE.

1. This table is divided into 3 parts—Part I is State Summary, Part II is District-wari and Part III is for Cities. The Standard of Literacy adopted for Census purposes is the same as was done in 1931 (Table XIII). The communities shown in this table are just the same as shown in other Tables VII, VIII, etc.

2. The total literates in the Dominions is 1,269,004 persons which represents 9.3 p.c. on the total population as against 5 p.c. in 1931. During the decade 1931-41 the number of literates have more than doubled with males contributing an increase of 86.4 per cent. and females 319.7 per cent.

3. Between 1931 & 1941 the increase per cent. in Urdu and English literates works out at 132.6 per cent. & 180.1 per cent. respectively. These figures represent 33 & 13 per mille of Urdu and English literates, respectively.

4. Distributed among the communities the number of literates per thousand and of persons who are able to read only are tabulated hereunder.—

XII.—PART II.—BILINGUALISM.

1.—This table gives for the Dominions and also for the districts the number of persons who speak other languages besides their mother tongue. All the languages shown as mother tongue in Part I of Table XII are shown here.

2.—Only four main languages of the Dominions namely Urdu, Telugu, Marathi and Kanarese have been tabulated for subsidiary languages. Attempts were not made to collect figures for tri or poly-lingualism.

3.—The following table shows the extent of languages spoken as mother tongue and subsidiary in the Dominions:

Languages				Number of persons		P.C. to total popula- tion
				As M. T.	As subsidiary	
1				2	3	4
1	Urdu	2,187,005	2,238,264	27.6
2.	Telugu	7,529,229	852,967	56.1
3.	Marathi	3,947,089	665,709	28.2
4.	Kanarese	1,724,180	370,334	12.8

N.B. --The percentages shown in column 4 show the number of persons speaking mother tongue and also as subsidiary indicating the extent of each language.

XII.—PART III. MOTHER-TONGUE BY COMMUNITIES.

1.—This is a new table added to the series, which records the distribution of mother-tongue among the various communities.

2.—Out of a total of 16,338,534 persons of all communities inhabiting the Dominions, 16,015,564 persons speak the languages indigenous to the State. Of the remaining mother-tongue returned for languages alien to the Dominions, 302,856 persons speak various Indian languages, 7,850 persons with languages belonging to Asia and Africa and 12,264 persons with European origin. The following table illustrates the number of persons speaking various tongues.

XIV.—Variation in Population of Selected Tribes.

Minor Castes found in the Dominions are Baiga (10 males and 8 females), Dyandra (13 males and 4 females), Yanadi (85 males and 84 females).

- (a) Erakala or Yerukala includes Korvi or Korwah, 2,289 males and 2,167 females.
- (b) Gond and Naikpod includes Rajgond 777 males and 365 females.
- (c) Kolam or Mannervarlu have in Hyderabad generally been confused with Gond, being wrongly shown in "Castes and Tribes of the Nizam's Dominions" as a sub-tribe of Gond. Therefore the figures are not reliable, and probably 2,000 or 3,000 are included in Gond.
- (d) The figures of Koli and Rajkoli are included for the first time as the tribe in the C.P. and Berar is shown as an aboriginal tribes though it is much Hinduised it has not previously been classed as aboriginal in Hyderabad. The Hyderabad and Berar Koli intermarry.
- (e) Koya includes Bhine-koya 325 males and 215 females and Raj-koya (or Racha-koya) 188 males and 138 females.
- (f) Lambara or Banjara includes Matthula 1,852 males and 1,637 females. The figures do not include the very Hinduised Wanjari Section of the community which has long settled down to agriculture, is completely Hinduised, and regards itself as a separate caste and is therefore recorded as a separate Hindu caste.
- (g) Pardhan or the Gond Bards were included in 1931 Census in the Pardhi group.

XVI.—SUMMARY FIGURES FOR DISTRICTS.

NOTE 1.—In this Table are shown the area in sq. miles, variation in population, density and distribution of population by communities.

NOTE 2.—The area of the Dominions is 82,698 sq. miles with 17 administrative districts besides the City of Hyderabad where there is a Municipal Corporation. The total population is 16,338,534 persons, which is an increase of 13.2 per cent over 1931. The density in 1941 is 198 as against 175 in 1931.

I.—Area, Houses, Population, and Prevailing Languages or Mother Tongue by Taluqs.

1.—The arrangement of Districts and Taluqs presented in this Table, in fact in all the Census Tables, have undergone a change from past practice when there was no uniformity or purpose behind its order. The new arrangement is based on the following principles :—

(i) The City of Hyderabad as the seat of Government tops the list of districts. The other districts are arranged according to four Subas, after the Sarf-i-Khas district of Atrai-Balda which surrounds the City of Hyderabad.

(ii) The order of taluqs are grouped clockwise with the headquarters of the districts on to each District and Taluq is given a definite serial number to facilitate reference.

(iii) The Non-Diwani Taluqs do not bear any serial number but appear below the Diwani Taluqs where they lie. Here again only such Taluqs which are compact units are shown separately. Where the Non-Diwani Taluqs contain scattered areas distributed in more than one Civil area, they have been shown separately and that only when the number of villages is more than ten in any one Civil Taluq; otherwise such scattered villages are included in the Civil Taluqs in which they go. Asterisks are marked to all those ilaqs whose areas come partly under the Taluq.

(iv) Two Taluqs of Sarf-i-Khas, viz., Mukaramabad (Khadka) and Homnabad of Atrai-Balda District are situated geographically in Nander and Bidar respectively. Hence these two units are also shown under the respective districts for easy reference though the figures against them are included in the total of Atrai-Balda District and not in the Nander and Bidar Districts.

2.—In 1941 names of certain Taluqs have changed and these are noted with the former names within brackets.

3.—As noted down in flyleaf of Imperial Table I there have been the following changes in certain administrative units during the decade.

(i) District Baghat, newly constituted as District, was formerly a Taluq under Medak District.

(ii) Taluq Yellareddi transferred from Nizamabad to Medak District.

(iii) Banswada Taluq is a new formation with areas being taken out from Taluqs of Yellareddi and Bodhan, 54,515 acres and 15 Guntas (or 85.2 sq. miles) and 104,009 acres and 13½ Guntas (or 162.6 sq. miles), respectively.

4.—For details of City of Hyderabad including British Administered area of Secunderabad, Trimulgherry and Bolarum reference is invited to State Table IV.

5.—For certain Non-Diwani Taluqs, area in sq. miles is not available and therefore left blank; but their areas are included in the Diwani Taluqs under which they lie.

N.B.—Percentages of Literacy shown in column 58 is worked out on total population including 0-5 age group.

III.—Infirmities.

1. There are four parts in this Table and they deal as follows :-

Part 1—Showing the No. of Infirm by Districts.

.. 2	do	..	do	by age.
.. 3	do	..	do	by community.
.. 4	do	..	do	by main occupations.

2. Special feature of this table is the additional item of statistics for persons afflicted with Guinea-worm. This information is intended to be useful in the Well-Sinking Schemes of the Government.
3. The item "Infirm" i.e. other Infirmities is a new item & covers up all such persons afflicted with such constitutional defects as one-eyed, one limbed and invalid. In the past such persons were not recorded at all. Besides, the data for "Leper" hithertofore collected and exhibited separately is now included in the column under "Infirm." The reason for not showing "Leper" separately is due to the fact that a correct diagnose of the disease by unqualified enumerators is likely to be more on the error side than accuracy with the result of misleading statistics.
4. The percentage of increase in the Infirm population increased by 306.8 per cent. over 1931, the increase in each infirmity being 16.6 Blindness, 444.7 in Deaf-Mutism and 911.0 per cent. Lunacy.

III.—Part I.—Infirmities by Districts.

(N.B.—Total Infrms do not include Guinea-Worm).

IV.—Hyderabad City by Mohallas, Wards and Divisions, area, number of occupied houses, population, No. of children and No. of literates.

1. This Table deals with the metropolis of His Exalted Highness the Nizam's Dominions. The Mohallas are given in alphabetical order, the areas of wards (in acres), children aged 0-5 and No. of Literates have also been newly added.

2. The units now comprising the City of Hyderabad are the same that were in 1931 but there have been two important changes. The locality known as the Residency Bazaar (now known as Sultan Bazaar) which was administered by the British Government, comes under the Municipal Corporation since its rendition in 1934. The area of the City has increased from 58 to 79 Square Miles—this increase being the result of absorption of 75 suburban localities around the City of Hyderabad—all about within 12 to 15 miles radius from King Koti Palace.

3. An "Occupied House" in the language of census means "a dwelling place of a family unit having a separate entrance." There is an increase of 18.9 per cent. houses as compared with 1931.

4. Asterisk against a mohalla indicates that only a part of it has come under the ward in which it lies, while the other part or parts of the same mohalla may lie in any other ward or wards, serial numbers of which have been indicated against it in brackets.

5. The Hyderabad City is the fourth largest in India with 739,159 inhabitants, *i.e.*, an increase of 58.3 per cent. over 1931, with a density of 9,357 persons per sq. mile against 8,809 in 1931.

6. The City is cosmopolitan in its outlook & strength with 11.3 per cent. persons having birthplace outside the Dominions, 5,591 persons belonging to various countries outside India but residing in the Dominions. 4,237 persons or 758 per 1,000 foreigners are residents of Hyderabad City.

7. The population is distributed among all the main communities found in the Dominions working out at 467 Muslims, 318 Hindus (Brahmans, other Hindus, Virashaivas and Aryas), 137 Harijans, 28 Christians and 50 all other communities per 1,000 total population.

8. All the Mother Tongues are represented in the City, Urdu with 567 per 1,000 persons, Telugu 208, Tamil 31, Marathi and Hindi 21 each, Rajasthani 14, Kanarese 13, English 12, Punjabi 7, Gujrati and Arabic 6 each. Further 157 persons in every 1,000 can speak Urdu besides Mother Tongue or a total of 724 per 1,000 persons know Urdu.

9. 35.5 per cent. persons are literates of which 8.8 per cent. are English Literates and 15.47 Urdu Literates.

10. 46.2 per cent. persons are the principal earners in the City who find their means of livelihood in various occupations distributed as follows :—

5.4	Pastoral means of livelihood.
0.4	Workers in minerals.
7.1	do Industry.
4.2	do Transport.
6.5	do Trade.

V.—COTTAGE INDUSTRIES.

1.—In 1931 census Statistics relating to certain Cottage Industries were collected at the instance of the Department of Commerce and Industries. A separate Questionnaire was issued and the data collected was tabulated and included in the Census Volume.

In 1941 the same procedure was adopted but the scope of the enquiry was enlarged by adding 8 more items v.z. —

- | | |
|--------------------------------|----------------------------|
| 1. Printing presses and Litho. | 2. Gold and Silver smithy. |
| 3. Bricks and Tiles works. | 4. Poultry farms. |
| 5. Tanneries. | 6. Cane and Bamboo making. |
| 7. Basket making. | 8. Soap manufactures. |

2.—This table deals with the number of small scale industries at work but does not indicate the number of persons employed thereon.

3.—An interesting picture is drawn with these figures as compared with the relative statistics of the table concerning means of livelihood.

VII.—HANDICRAFTS.

1.—This table is newly added to the series of State Tables in 1941. The answers to Census Questions regarding this item furnish two kinds of data. Firstly they refer to the various kinds of Handicrafts which the person enumerated knows besides his means of livelihood, and secondly whether the person knows, one, two or three such Handicrafts. The table is thus classified :—

Part (a) gives one Handicraft

„ (b) „ two Handicrafts

„ (c) „ three Handicrafts

the total of all the Handicrafts is shown as main table.

2.—The total number of persons knowing Handicrafts is 316,874 (208,699 males & 108,175 females) or 19 persons in 1,000 of total population. According to the figures obtained in M/L table, the ratio of principal earners to total-population works out at 429 per 1,000 persons.

3.—The subjoined figures indicate the total number of persons showing the Handicrafts with the corresponding number of persons who have returned as their M/L (Imp. table VIII) the same kind of occupation.
